SURFACES THAT LAST

Italian-led design, pressed and fired in Morbi — porcelain tiles and engineered slabs built for permanence, and shipped worldwide on container programmes.

MORBI — GUJARAT, INDIA

LATTECERAMICHE.COM

MORE THAN TILES. LASTING IMPRESSIONS.

A tile is never just a surface — it is the character of a space, set in stone. Every piece we press begins with a vision and ends in ceramic that is equal parts beauty, strength and precision. We manufacture from our own facility in Morbi, the ceramic capital of India, with the raw material, presses, kilns and finishing lines under one roof.

That control is what lets us hold a standard across a catalogue this wide: bodies fired to full vitrification, rectified edges, high-definition digital printing and a release calendar that puts new decors in front of buyers every month. Our export desk handles container programmes for importers, distributors and project buyers worldwide.

1200°C	<0.5%	72	420+
FULL VITRIFICATION	WATER ABSORPTION	EXCLUSIVE DESIGNS	FACE RANDOMS

Two product lines, one standard. Each is pressed from the same vitrified body and printed on the same high-definition line — what changes is the format, the thickness and where the surface is meant to live.

/01

PORCELAIN TILES

The heart of the range — high-strength vitrified bodies with high-definition digital printing, for floors and walls that carry daily life with grace. Supplied in four standard formats at 8.5 mm, plus a thin 600 × 1200 mm body in 5 mm and 6.5 mm for cladding, renovation and lightweight builds.

THICKNESS	8.5 / 6.5 / 5 mm
FINISHES	Polished · High Glossy · Matt · Digital Matt · Sugar/Lapato · Wool · Carving · R11 Anti-Slip · Invisia
USE	Floor and wall — residential & commercial

- 300 × 600 MM — 8.5 MM
- 600 × 600 MM — 8.5 MM
- 600 × 1200 MM — 8.5 MM
- 1200 × 1200 MM — 8.5 MM
- 600 × 1200 MM — 5 MM
- 600 × 1200 MM — 6.5 MM

/02

ENGINEERING SLAB

Continuous surfaces for countertops, facades and statement walls — dense, exact and beautiful under fabrication. Book-matched marble decors in the Marble Edition, with a technical sheet published for every decor.

THICKNESS	15 mm and 12 mm
SERIES	Colourbody and full-body
USE	Countertops, facades, statement walls

- 800 × 2400 MM — 15 MM
- 1200 × 2400 MM — 12 MM
- MARBLE EDITION
- BOOK-MATCH

NINE WAYS TO FINISH A SURFACE.

/01
POLISHED
Mirror-gloss depth that makes high-definition printing glow.

/02
HIGH GLOSSY
A deeper, wetter gloss — for decors where translucency matters.

/03
MATT
Soft, honest and glare-free, for calm contemporary interiors.

/04
DIGITAL MATT
Matt laid down digitally, so the sheen follows the printed decor.

/05
SUGAR / LAPATO
A fine sugar texture with lapato polish — light catches, glare does not.

/06
WOOL
A soft, close-woven surface with a warm hand and quiet reflection.

/07
CARVING
Relief carved in register with the print, following the veining.

/08
R11 ANTI-SLIP
Certified grip for wet areas, terraces and commercial floors.

/09
INVISIA
Our exclusive surface — non-reflective matt with the grip of matt.

TECHNICAL SPECIFICATION — PORCELAIN TILES

BODY	Vitrified porcelain	THICKNESS	8.5 mm
FINISH TYPE	Invisia Matt + Carving	SLIP RATING	R10
WATER ABSORPTION	< 0.5%	DECOR	High-definition digital printing
